

Special Item 34: Scroll of Augury

Scroll of Augury

Scroll, Uncommon

Magical scrolls are imbued with one or more spells that have been inscribed into the parchment (or other suitable material) using magical runes and mystical writings. To inscribe a scroll, one must have all the material components required for the casting. These are consumed when the scroll is inscribed. This particular scroll allows the user to cast the Augury spell to divine possible outcomes for an action that is being considered. The user may cast the spell as a normal casting but no material components are needed.
