

*Special Item 29: Hide Armor of Acid Resistance*

# Hide Armor of Acid Resistance

*Armor, Rare (requires attunement)*

**Effects:** The wearer has resistance to Acid damage while wearing this armor.

**Armor Class:** 12 + Dex modifier (max 2)

**Weight:** 12 lbs.

This armor consists of several slabs of poorly tanned leather and fur from a variety of unknown animals. It has been crudely stitched together into a sort of long vest. A rough knotted rope is used to secure it around the waist. It stinks horribly and doesn't look very impressive, but the thick layers of hide provide a surprising amount of protection, and it seems to resist the effects of even the most caustic of acids.
