

*Special Item 8: Mozur's Mugs*

# Mozur's Mugs

*Wondrous Item, Uncommon*

Named for the clever Dwarf that first conceived of them, these large glass tankards typically come in a pair. One mug has a bluish hue, while the other glows with a soft ruddy light when filled. The blue mug keeps whatever liquid is placed inside refreshingly chilled, while the red mug heats any liquid poured into it to the perfect warmth without scalding the imbiber.
