

*Special Item 27: Apprentice's Ring*

# Apprentice's Ring

*Ring, Uncommon (requires attunement – Sorcerer or Wizard only)*

Created by powerful spellcasters to assist their pupils with the practice of key spells, these simple, unadorned rings are nevertheless extremely useful for young mages.

The wearer of this ring can cast each of the following spells once per long rest without expending a spell slot: Burning Hands, Feather Fall, Mage Armor, Magic Missile, Detect Magic, and Identify. **Note:** The spells are always cast as if the wearer is at the first level of experience (the ring is for practice, after all).
