

Special Item 33: Ring of Protection

Ring of Protection

Ring, Rare (requires attunement)

Effects: +1 AC, +1 to saving throws

This ring appears relatively plain and unassuming, though it does bear runes on the surface. When worn, the bearer immediately feels a slightly heightened sense of security, and the worst effects of the environment, whether heat or cold, are lessened. Wearing this ring imparts a subtle aura of protection to its bearer which is able to slightly absorb incoming damage and grants the wearer an edge in all dangerous situations.
