

Special Item 24: Climber's Gloves

Climber's Gloves

Wondrous Item, Uncommon (requires attunement)

There are a number of different varieties of these types of gloves. All of them, however, offer improved ability to climb with greater effectiveness. While the user is wearing these gloves, climbing does not require extra movement. In addition, the wearer gains a +3 bonus to Strength (Athletics) checks made to climb up or down surfaces.
