

Special Item 22: Smoke Bomb

Smoke Bomb

Alchemy, Uncommon

These small multi-colored spheres are alchemical devices, each with a fuse sticking out of the top. When it is lit, the user has three seconds to throw it before a billowing cloud of colored smoke pours out of it. This replicates the effects of a Fog Cloud spell, but creates smoke rather than fog, and is not magical. **Note:** There are a number of advanced Smoke Bomb types that offer additional effects beyond the standard Smoke Bomb
