

*Special Item 23: Slip and Slide Oil*

# Slip and Slide Oil

*Potion, Uncommon*

This dark, oily liquid is slick and slimy to the touch – much like soap. It can be taken from the container and be applied to a creature to provide the user the effect of a Freedom of Movement spell for 6 (1d4+4) hours. A standard vial of the slick goo can cover a Medium or smaller creature – along with whatever equipment the user is wearing. It takes approximately five minutes to apply the oil fully to cover the creature who is using it. **Note:** One additional vial is needed for each size category of creature above Medium.

A Slip and Slide Oil may also be poured on the ground as a standard action, where it covers the equivalent of 15 square feet (three 5-foot squares). This will, effectively, replicate the effect of a Grease spell being cast in that same area. The effect will last for 6 (1d4+4) hours or until the oil is cleaned from the area.
